

Thank you for downloading the "Krezie Journeys" demo presets for the u-he Hive software synthesizer. This demo contains 8 presets from the full soundset "Krezie Journeys for Hive".

"Krezie Journeys for Hive" is a soundset full of retro cinematic presets inspired by the great synthesizer artists from the late 70's and 80's. You'll find beautiful leads, lush pads, great keys, basses, plucks, SFX, ARP's and sequences. If you like the sounds of artists like Vangelis, Tangerine Dream and others of that era, this soundset will be right up your alley. The sounds are designed with passion. I hope you enjoy them, and let them inspire you to create some wonderful music!

Musically yours,

**Krezie Sounds**

## Compatibility:

This soundset can only be used with the full version of the u-he Hive software synthesizer from version 1.0 and upwards.

The u-he Hive software synthesizer is a software product of u-he, and is not included with this soundset.

## License Agreement / Terms of Use:

The following is a legal agreement between Krezie Sounds and you; the end user.

By purchasing the soundset you obtain a non-transferable license to use the sounds in your own works, and you agree to the following terms of use:

### **You may:**

- Use the non-isolated sounds royalty free for commercial and non-commercial music compositions.

### **You may not:**

- Resell, give away, distribute the patches / license in any way or form.
- Sample the isolated sounds for resell or distribution in a sound library or other package.

## Disclaimer:

- When purchased, soundsets will not be refunded.
- Usage of the soundset is at the users own risk. Krezie Sounds cannot be held responsible for any damage whatsoever by using the soundset.

## Installation:

- The ZIP file for this soundset contains this user manual and a folder "Krezie Journeys Demo".
- The folder "Krezie Journeys Demo" contains the actual presets.  
For installation of the presets you need to place the folder "Krezie Journeys Demo" in your Hive preset folder and you're good to go.
- Please consult the user manual for tips on making the most out of the presets in this soundset.

## Tips:

- To protect your ears and gear: familiarize yourself with the patches before you play them at loud volumes.
- Make sure the modwheel and aftertouch assignments are correctly assigned for the modwheel and aftertouch options to work. In some DAW's aftertouch midi input is filtered out by default. Consult the user manual of your DAW or internet resources for information on how to set this up correctly.
- For the preset pitchwheel options to work correct;  
Make sure that the pitchbend range in your DAW is set to 12 semitones minimum.
- Try the modwheel-, aftertouch- and pitchbend- options to enjoy the sounds and their expression options to their fullest.
- Information on the presets and modulation options is presented in the preset information area within u-he Hive.
