WARNING

Please lower your monitors and headphones volumes if are high, some presets are designed to work randomly and can harm your equipment if you do not take precautions.

DESCRIPTION

Trail of Nexus 6 is designed with inspiration of the Blade Runner film. This soundset have a futuristic sound, it is the natural continuation of the soundset Rebel. All the sounds of this soundset are good for all styles of music and perfect for futuristic electronic compositions.

ATM: 17 atmospheres with a industrial and dark feeling.

BAS: 13 original and strong basses.

KEY: 19 sounds for play with the MIDI keyboard.

LEA: 6 futuristic leads.

PER : 12 modulated and distorted percussions.

SEQ: 4 cool sequenced patches using the LFO's.

SFX: 29 science fiction effects, ideal for videogames and films.

This soundset is so complete with all kind of sounds that you can make entire songs with it.
